Karlan Tucker Climbs to the Top of American Equity

Karlan Tucker is currently the number 2 producing advisor out of more than 52,000 contracted with American Equity.

Denver, CO – May 20, 2008 –Karlan Tucker currently stands as the number 2 producer in the country for American Equity, out of more than 52,000 advisors. Not only has Karlan moved up in production, but his National Marketing Organization (NMO), Tucker Advisory Group (TAG), is currently the number 2 producing NMO out of more than 70 NMOs currently working with American Equity.

Karlan has been recommending indexed annuities for more than 11 years and has written more than \$50 million throughout his career. He has been in the Top 10 producers with American Equity for four years and has recently climbed his way to the number 2 position. Karlan also coaches more than 800 advisors across the country through his NMO, TAG, ensuring that they are well-educated on the product and that they use best practices in their office, which has paid off.

With more than 800 advisors at TAG, which started working with American Equity about two years ago, the NMO is also currently in the number 2 position for production out of 70 NMO firms contracted with American Equity.

“American Equity offers a great product to clients and I am happy to pass my knowledge and skills to the advisors contracted with us,” Karlan said. “I wouldn’t feel like a success if I didn’t feel like the advisors that we work with are a success. I’m very happy that both my NMO and I have reached number two with American Equity.”

About Tucker Advisory Group (TAG)

Tucker Advisory Group is a unique financial services company based on the award-winning personal practice of Karlan Tucker. Karlan’s personal motivation of excellence has allowed him to expand his business into two entities. TAG’s first objective is to meet the financial needs of seniors nearing or already enjoying their retirement with safe-money strategies designed with them in mind. TAG’s second objective is to teach financial advisors across the nation how to build their own practice on the unique principal-based foundation that has made Karlan a national authority on retirement planning.
